

HC AT

HCAT

**Personal Development & Relationships
(Sex) and Health Education Curriculum**

Purpose of study

At HCAT, the PD & RSHE Curriculum sets out learning opportunities for each key stage, in each core theme, organised under subheadings. These learning opportunities should be used flexibly to plan a programme according to pupils' development, readiness and needs, and taking into account prior learning, experience and understanding.

Learning from one area may be related and relevant to others. Whilst this framework distinguishes three separate core themes, there will be extensive overlap, so when planning schemes of work, schools may draw from more than one theme. For example, Relationships and Sex Education (RSE) falls within both 'Health and Wellbeing' and 'Relationships', as sexual health should always be considered as an element of health education but also taught within the context of healthy relationships. Similarly, whilst they are specifically addressed where appropriate, assessing and managing risk and managing life online are integrated throughout all three core themes.

PD & RSHE education addresses both pupils' current experiences and preparation for their future. The HCAT PD & RSHE curriculum therefore provides a spiral curriculum to develop knowledge, skills and attributes, where prior learning is revisited, reinforced and extended year on year. This is grounded in the established evidence base for effective practice in PD & RSHE education.

During key stages 1 and 2, our PD & RSHE curriculum offers both explicit and implicit learning opportunities and experiences which reflect pupils' increasing independence and physical and social awareness, as they move through the primary phase. It builds on the skills that pupils started to acquire during the Early Years Foundation stage (EYFS) to develop effective relationships, assume greater personal responsibility and manage personal safety, including online. PD & RSHE education helps pupils to manage the physical and emotional changes at puberty, introduces them to a wider world and enables them to make an active contribution to their communities.

PD & RSHE education contributes to personal development by helping pupils to build their confidence, resilience and self-esteem, and to identify and manage risk, make informed choices and understand what influences their decisions. It enables them to recognise, accept and shape their identities, to understand and accommodate difference and change, to manage emotions and to communicate constructively in a variety of settings. Developing an understanding of themselves, empathy and the ability to work with others will help pupils to form and maintain good relationships, develop the essential skills for future employability and better enjoy and manage their lives.

We have created supplementary guidance on sex education which is additional, but non-statutory content that parents have a right to withdraw their child from.

CORE THEME 1: HEALTH AND WELLBEING

This core theme focuses on:

1. Healthy Lifestyles (Physical Wellbeing)
2. Mental Health
3. Ourselves, Growing and Changing
4. Keeping Safe
5. Drugs, Alcohol and Tobacco

CORE THEME 2: RELATIONSHIPS

This core theme focuses on:

1. Families and Close Positive Relationships
2. Friendships
3. Managing Hurtful Behaviour and Bullying
4. Safe Relationships
5. Respecting Self and Others

CORE THEME 3: LIVING IN THE WIDER WORLD

This core theme focuses on:

1. Shared Responsibilities
2. Communities
3. Media Literacy and Digital Resilience
4. Economic Wellbeing: Money
5. Economic Wellbeing: Aspirations, Work and Career
